Please reference the name of the sale or the sale date and your Buyer Number.

FOR THOSE CONDUCTING BUSINESS WITHIN CALIFORNIA:

The only way to be exempt from sales tax is to give us a copy of your resale permit. We do not keep copies on file, and verbal recitations or written confirmations of your resale permit number are not sufficient. You must bring an actual hard copy for our office to keep. If you cannot provide a copy either before or during payment, you will be charged the sales tax.

If you can provide a copy after payment is made, but within 21 days of the sale date, you will receive a sales tax refund. After 21 days, your sales tax will have been remitted to the State Board of Equalization, and steps will not be taken to retrieve that money for you.

Notes: (1) If you are a manufacturer, your resale permit will not be accepted. A resale permit is valid only when you are buying the type of machinery that you are in the business of selling. So, if you are buying items that you do not routinely sell, we reserve the right to require additional proof, such as a copy of an ad. If your status is still unclear, we reserve the right to refuse your permit.

FOR THOSE CONDUCTING BUSINESS OUTSIDE OF CALIFORNIA:

The only way to be exempt from sales tax is to provide us with a SIGNED Bill of Lading (from a common carrier only) proving that your equipment has crossed state lines. The State Board of Equalization doesn't accept resale permits from other states. As you will not be able to provide a Bill of Lading until after the items have been moved, and therefore, after payment, you must pay the sales tax. When you fax a copy of your Bill of Lading to our office (818-933-0782), a refund check will be promptly sent. However, if you don't provide us with a copy within 21 days of the sale, your tax money will have been submitted to the State Board, and we will not take steps to retrieve it for you. **Please note:** if you send us a wire transfer for payment without including the sales tax, and before providing a Bill of Lading, your items will not be allowed to leave the sale site until the situation is corrected. There are no exceptions to this.

Note to International Buyers: Unfortunately, we cannot accept Bills of Lading for items being exported to Mexico, or any other country. If you are exporting equipment to another country, you must pay the sales tax, unless you move through another U.S. state first, and can provide us with a Bill of Lading showing the items have moved to Arizona, or Texas, etc.
